Swiss Professionals of
Clinical Research Coordination

5th Congress of Swiss Professionals of Clinical Research Coordination (SPCRC)

**November 11, 2022
Kongress Hotel Kreuz
Bern**

Dear colleagues and friends,

It is our great pleasure to invite you to the 5th congress of the Swiss Professionals of Clinical Research Coordination which will take place at the Kongress Hotel Kreuz in Bern on Friday, November 11th, 2022.

A faculty of renowned speakers will address crucial topics and enhance our knowledge in important areas of our professional work. The friendly and relaxed attitude of the congress will give you the great opportunity to informally meet speakers and colleagues, discuss challenges we are facing in daily work, and exchange ideas. In addition, you have the opportunity to become a member of the Association of Swiss Professionals of Clinical Research Coordination.

Although the focus will be on a stimulating professional meeting, the congress is not only about education and engagement in professional development; it is also about networking, meeting old friends again, and making new friends. There will be opportunities for exchanging ideas and socializing during the coffee breaks, the delicious meal at lunch and the apéro at the end of the congress.

By applying all national and state rules on hygiene at times of the COVID-19 pandemic we will make sure that this educational congress is a safe event for all participants. Therefore, the congress will take place under the current legal regulations.

Welcome to the National Congress for Study Nurses and Coordinators 2022!

For the steering committee SPCRC

Esther Seeberger, congress chair
